

We thought you'd like to know...

The Essex Park Garden Club

There is probably nothing that says “home” more than flowers. And there is probably nothing that will help make a “subdivision” a “neighborhood” more than a garden club.

To that end, Coolman Communities/Capstone Development, the developers of Essex Park, are putting \$100.00 of the purchase price of each lot (as they close) into the “Essex Park Garden Club” fund, for use by the residents of Essex Park to plant flowers and beautify their community.

We'll also be working with the neighborhood to do initial flowerbed preparation in locations deemed appropriate by the Essex Park Owners Association.

Happy Planting!
