

We thought you'd like to know...

Our Service Department

Service

We don't rely on our subcontractors to perform most of our warranty service work, so you're not waiting for weeks to get service performed. Generally, service will be performed by one of our highly qualified service tech's, so you don't have to juggle schedules with various trades.

Accommodation

Our service manager will coordinate schedules with you and our professional service techs will actually perform most of the work.

Quality

Coolman Communities service program has been recognized as among the best in the country by National Research Systems. We hope you don't ever have to use it, but if you do, we're confident that we'll perform to exceptionally high standards.
