

THE PRAIRIE

A T A B E R D E E N

simply serene.

A prime parcel of prairie like this called out for **innovation**. We wanted to work with the land, rather than against it, and the result is a **charming** village of home sites, each with its own private prairie view. Our new **community** of homes will benefit from new technologies for everything from **prairie restoration** to rainwater collection. Yes, nature did have a voice at **The Prairie** and we listened. Now homeowners, too, will be able to listen – and **luxuriate**. Home is inside and also outside: native wildflowers, the **setting sun**, the sound of prairie grass as it responds to the breeze – **simply serene**.
